

## Welcome to Nile Bridal

We're so glad to have you work with us! This guide is meant to provide specific information to help get your gown off to a great and productive start.

### Our Mission

To provide you with a clear understanding of our studio's operations & how exactly you will end up with the gown of your dreams

### What to expect at Nile

With more than three decades of experience, we will provide you with service that has truly seen everything in the industry & is still adapting to the latest trends and techniques in fashion. Our studio has been fortunate enough to restore countless family heirlooms from decades past as well as working on the latest creations from designers shaping the industry today.

## PROCESS

### Your Fittings

Your initial consultation fitting will give us the opportunity to assess your exact needs for your gown & how we will be best able to service them. As there are endless factors in determining the cost of alterations, this will be our first opportunity to provide you with a quote for your dress after seeing the design, how it fits on you, the materials being used, and how much work will go into giving you your perfect gown. We will have up to four additional fittings depending on complexity of the design, with the final fitting being as close to the event date as possible in order to make sure we get the best fit for your event.

### Pickup Agreement

Once all services are completed & the total has been paid, we ask that you do a complete inspection of your gown & are agreeing that everything was done as requested by the arranged date and that you are taking responsibility for the gown upon leaving the studio.

## TERMS

Once services are agreed upon and have begun, we are not responsible for changes requested nor loss by fire, flood, or theft.
